SUSTAINABILITY & IMPACT

At LIV Golf Dallas, we are proud to continue raising the bar for sustainable events.

- We are aiming for an 85% waste diversion rate, with help from an on-site sorting team, compostable service ware and recycling stations across the course. Please use the designated bins and help us keep Dallas clean and green.
- All excess food from the event will be donated to Metrocrest Services, supporting our local community and tackling food waste at the same time.
- We have installed water refill stations to cut down on single-use plastics. Bring your own bottle and refill throughout the day.
- We are committed to inclusivity. LIV Dallas provides ADA-compliant viewing platforms, transportation support and rest areas to ensure everyone can enjoy the action comfortably.
- Behind the scenes, our volunteer program focuses on engaging people from across Dallas' diverse communities.

By attending, you are part of a movement to make golf more sustainable, accessible and impactful, both on and off the course.

The Sunflower Program is an initiative that provides individuals with hidden disabilities – such as autism anxiety, or chronic illnesses – with a discreet sunflower lanyard or badge, signaling to staff and others that they may need additional support, patience, or assistance. At LIV Golf, the program can enhance accessibility and inclusivity for spectators, players, and staff with hidden disabilities. By training event personnel to recognize the sunflower symbol, LIV Golf will ensure a more supportive experience, offering accommodations for those in need.

The Sensory Room, located in the main First-Aid tent, provides a relaxing and calming space for kids of all ages. This area promotes calmness and security by featuring soft bean bag chairs, soft flooring, a weighted blanket, and a soothing essential oil diffuser.

A light-up plush pillow adds gentle visual stimulation, while a selection of fidget toys offers tactile engagement for self-regulation. Designed for relaxation and quiet sensory exploration, this space helps children feel comfortable and at ease.
