IMPACT & SUSTAINABILITY

Sustainability is a huge part of LIV Golf and this year at LIV Andalucía, we are stepping things up to protect the planet and support the local community. Here is how we are making this event cleaner, greener, and more responsible:

CLEAN ENERGY ON COURSE:

The Driving Range and Tees 3, 7 and 8 are powered by solar panels and batteries and all generators will run on 100% renewable HVO fuel.

ELECTRIC ALL THE WAY:

A fleet of electric buggies will be in operation and fans can make use of 15 EV charging points across and near the venue.

HYDRATE WITHOUT WASTE:

There are 24 free refill stations across the course - bring your own bottle and help eliminate single-use plastic.

SMARTER COURSE CARE:

The course uses a rainwater recycling system with 3,000 precision sprinklers - minimising water use while keeping conditions world-class.

ZERO WASTE GOAL:

We are aiming for zero waste to landfill. Bins are clearly labelled for recycling and compost and all materials are sorted and recovered.

STRUCTURE REUSE:

We are reusing 100% of our structures and 30% of our signage from 2024 - reducing waste and saving materials.

BY ATTENDING, YOU ARE PART OF OUR MISSION TO MAKE GOLF MORE SUSTAINABLE. THANK YOU FOR BEING PART OF IT!
